

CHARLES P. NOELL MAKES REPLY TO DISBARMENT SUIT

Says He Is Being "Put on
Spot" Because He Has
Collected \$2,000,000 in
Judgments.

GIVES HIS VERSION OF U. S. TAX CASE

Declares He Merely Claimed
Exemptions for
Traveling Expenses but
They Were Not Allowed.

Charles P. Noell, attorney against whom the St. Louis Bar Association's Grievance Committee filed a disbarment suit yesterday, replied to the committee's charges today with a statement that he was being "put on the spot" because his clients have obtained judgments against railroads totaling about \$2,000,000.

Noell, who has specialized in personal injury claims against railroads, was charged in the disbarment petition with "dishonorable and unprofessional" conduct by making secret payments to employees of railroads and other corporations for information used to secure business. The petition set out that Noell represented to the United States Board of Tax Appeals that 35 per cent of his gross income in the years 1922 to 1925, inclusive, was expended for that purpose. At the tax board hearing in 1931, Noell testified that during the four-year period in question he had spent \$36,645 for traveling expenses and payments for information about accidents.

Noell's Statement.

"I have been rather successful in obtaining the true facts of cases," Noell said in a statement to the newspapers, "and have obtained judgments against railroads for about \$2,000,000. Naturally these big corporations, and their defeated lawyers, hold an ill-will toward me. Their lawyers, being influenced by the Bar Association Committee in charge of disbarment cases, have put me on the 'spot' again, in the hope that now they may get a lawyer who makes them pay for damages for injuries to their employees, passengers or others."

I have always been the friend of the injured man, or his widow and children—my 'under-dog' so to speak, and my clients are my friends. They naturally bring me a great deal of business. I have been practicing law for 23 years, and do not have to pay anyone to get business for me."

Income Tax Charge.

The tax charge they made was with reference to my income taxes 10 or 12 years ago, a rather remote time. I sought certain allowances for traveling expenses of myself and others, and compensation for time and services others in obtaining necessary facts. My claim was disallowed because I feared to prejudice some persons who were paid for time and services in getting the true facts in cases. I paid the tax rather than furnish their names and possibly cause them to lose their jobs.

It was my duty to get the true facts of cases in the interests of my clients, and if I had to pay for such services, it was nothing more than the United States, State and Municipal Governments are doing and have been doing for years. And will my attorneys say these railroads and their attorneys have not been doing the same thing all along?

If it is unethical to get the truth for use as evidence in a law suit, and if incurring expenses and paying for such services, then I am guilty, and I will have as equally guilty practically my brother lawyers actively practicing at the bar."

**SECOND WIFE TOLD TO AID
ALIMONY-PAYING HUSBAND**

Chicago Judge Issues Order in
Suit Against Man Who Is \$355
in Arrears.

By the Associated Press.

CHICAGO, Feb. 9.—A man's second wife, if financially independent, should support him while the money he makes goes to support his divorced wife and her child, Judge Desot ruled.

The ruling, given yesterday, will affect Mr. and Mrs. Richard H. Carr. Carr's first wife, Beatrice, had him summoned to court, where he was unable to find use for the merchandise had thrown the parcels away. The contents of several discarded packages were found last night in hiding places in the postoffice building.

D. Braumstein, who is 30 years old and lives at 317 De Balviere avenue, has been working in postal service since 1927.

By the Associated Press.

OLYMPIA, Wash., Feb. 9.—A mob said to have been made up of Dominican exiles attacked and beat three Dominican diplomats as they prepared to board the steamer *Castilla* sailing for Santo Domingo, today. The three—Eduardo Matos Diaz, Dominican commercial attaché in Mexico, Rafael Matos Diaz and Rafael Damiron—were slightly injured before police rescued them. They later boarded the ship.

LAWYER UNDER FIRE

By a Post-Dispatch Staff Photographer.
CHARLES P. NOELL,

PLEADS GUILTY, GETS YEAR IN AUTO DEATH

R. C. Smith Accused of Fatally
Injuring Man When in
Intoxicated Condition.

Russell C. Smith, 29-year-old office manager, was sentenced to a year in the Workhouse by Circuit Judge Connor today on his plea of guilty of manslaughter and driving when intoxicated.

An automobile driven by Smith struck and killed William Crandom, a switchman on the Twelfth street viaduct Nov. 12, 1933. Smith drove on, abandoned his car at Twelfth and Market streets, and was arrested while walking a half block away. He was pronounced suffering from acute alcoholism by City Hospital physicians.

As Smith's case was called, a woman dressed in black stepped before the bench. "Judge," she said, "I'm Mrs. Fannie Crandom, the widow of the man who was killed. I've suffered terribly because of his death. I'd like to see this man vigorously prosecuted."

Assistant Circuit Attorney Woodward explained that he had to gauge his recommendation by the punishment juries had assessed in such cases in the past, and the State did not believe it could obtain a heavier sentence by sending Smith to trial. He then recommended the year term.

Smith gave his address as 3824A Folsom avenue at the time of his arrest. Crandom lived at 4865 Alleman avenue. He was the father of three children.

HEINE BOILER CO. TAKEN OUT OF RECEIVERSHIP

Final Report Is Approved; Several
Minor Tax Suits Remain to Be
Settled.

Receivership of the Heine Boiler Co. was terminated, in effect, by orders signed today by Federal Judge Faris, entering a deficiency judgment against the Schreve Avenue Boiler Co. for \$204,602 in favor of the St. Louis Union Trust Co. trustee for bondholders.

Non-depositing bondholders, owning but \$2,000 of a \$350,000 bond issue, will receive \$1061. The final report of Fred O. Pahmeyer as receiver of the Heine firm was approved, his bond released, but he remains receiver pending settlement of several minor tax suits.

The sum to be received by bondholders is chiefly from proceeds of the sale of the firm in January, 1934, by Pahmeyer, acting as special master for the bondholders, to the Super Heater Co. of New York, for \$201,000, the minimum price paid by Judge Faris, who ordered the sale. The Schreve Avenue Boiler Co. is being operated as a unit of the Super Heater company at 5319 Schreve avenue.

POSTOFFICE WORKER ADMITS THEFT OF 150 PACKAGES

Continued From Page One.

**Laborer Arrested and Tells of
Takings Merchandise from
Parcel Post.**

Arrested last night at the Main Postoffice where he is employed as a laborer, Hasakar D'Braunstein was quoted today by Postoffice Inspector Kupferer as admitting the theft of about 150 parcel post packages from the mails in the last seven years.

D'Braunstein said, according to Kupferer, that he had taken packages addressed to out-of-town customers by department stores and mercantile houses, and in cases where he was unable to find use for the merchandise had thrown the parcels away. The contents of several discarded packages were found last night in hiding places in the postoffice building.

D'Braunstein, who is 30 years old and lives at 317 De Balviere avenue, has been working in postal service since 1927.

Street Car Conductor Held Up.

C. E. Dickey of Caseyville, Ill., conductor on a Washington Park street car in East St. Louis, was robbed of \$25 and the fare box at 1:30 a.m. yesterday by two men who boarded the street car at Forty-second street and Forest boulevard. The men rode one block and escaped in an automobile.

YELLOW CAB FIRM PRETTY MUCH OF A FAMILY AFFAIR

President Cathcart of New
Concern Brother-in-Law
of W. J. Brown, Head
of Its Predecessor.

Robert O. Cathcart, president of the new Mound City Cab Co., which has been operating Yellow* taxis since Jan. 15, is a brother-in-law of William J. Brown, president of a predecessor, the American Taxicabs, Inc., it was brought out in a deposition yesterday. It was shown that the business of providing taxi service in machines painted yellow or brown had been pretty much a family affair here for the last 17 years.

Mrs. Cathcart, Brown's sister, has been chief night dispatcher for both companies. Mrs. E. J. Denton, another sister of Brown, has been chief day dispatcher of both concerns. J. R. Cathcart, brother of Robert, has been connected with both. Robert Cathcart testified he was receiving \$100 a week as president of the Mound City. Brown, who testified a week ago that his brother-in-law had been paid \$40 a week as night supervisor, said he himself drew \$65 a week first as president of the old company and then as manager of the new.

Suit Over \$43,727 Claim.

Cathcart was examined by Richard C. Coburn, counsel for the Yellow Manufacturing Acceptance Corporation, which filed a receivership suit against American Taxicabs, Inc., and has been trying to find assets of the latter concern to satisfy a claim of \$43,727. This amount was the balance due for cable after sale for \$30,250 of 187 machines it received.

Alderman Wilbur C. Schwartz, attorney for the Mound City, the American Taxicabs and their predecessors, the Yellow Motor Co. and the Brown Cab Co., advised Cathcart not to answer many of Coburn's questions concerning the value of corporate set-ups and other matters. Cathcart, who resides at 3125 Webster avenue, and who has been associated with Brown since 1918, when they conducted the Brown Cab Co. in a small way, took his lawyer's advice and refused to answer. He said Schwartz took the lead in forming the Mound City Company.

A mild-mannered little man, Cathcart spoke in a voice so low that Schwartz had to admonish him to speak up "as though he were addressing a taxi chauffeur." He wore a green shirt, brown tie and gray suit. His thinning hair was tufted on his forehead. There were heavy circles under his eyes; he has done night work for years, and said, in response to a question, that his duty now was night supervision alone.

His Estimate of Business Costs.

Business costs mentioned by the witness were: Telephone service, about \$750 a month; payments on 90 taxi meters, under a five-year plan, about \$450 a month, or \$5 per meter; gasoline—"less than American Taxicabs bought"—about \$70 a week; \$300 a month under a contract with the Terminal Rail Union Station; Hotel Statler, \$150 a month for the taxi stand, Hotel Chase and the Forest Park Hotel, about \$10 a month each for stores; also salaries, including \$40 a week for his wife. Cathcart said the Oheimer Meter Co. of Dayton, O., took back 66 taxi meters from American Taxicabs, Inc., and sold 50, which had been held by American Taxicabs, Inc., to the Mound City firm for \$225 each.

California officers quoted Frechette as saying that he and Brown quarreled over a young woman, that Brown took his pistol from a pocket of the car and that during a struggle for possession of the weapon, Brown was killed.

**"RUGGED INDIVIDUALISM"
STILL APPEALS TO HOOVER**

Commands "Typical Western Stock-
man" Who Meets at Train
Stop in Wyoming.

By the Associated Press.

CHENNAU, Wyo., Feb. 9.—The words "rugged individualism" still appeal to former President Herbert Hoover. During a train stop here yesterday Thomas Thain, a Republican State Senator, was introduced to Hoover as "a typical Western stockman."

"I've often thought about that resolution you stockmen passed at one of your conventions here, a while back," Hoover said. "I admired your stand for rugged individualism typified by you Western stockmen."

The resolution referred to advocated a "return to the rugged individualism which has played such an important part in the development of the West," and condemned Roosevelt administration farm policies.

**CLOTHING FIRM
LISTS ALDERMAN
AS OFFICER IN '34**

Continued From Page One.

ing the investigation, which his committee was appointed to do, but in trying to put someone in a false position, for manifestly chicanery, if when he found that it did not cover all he now falsely states he asked me for, it would have been simple enough matter for him to say so to me. Again I say, he was not interested in having me make a report covering this matter, but interested in jockeying for a position which would make him feel war-ranted in charging me with bias and prejudice.

"So far as Mr. Waldman's resolution to 'bar' me from further work in investigating these matters is concerned, I leave the public to judge what his real reason for not wanting me to assist in the investigation is."

Alderman Hoebling, when seen by a reporter, would not discuss the annual report of the Standard Clothing & Tailoring Co., on file at Jefferson City and listing him as an officer of the company.

Mr. I. Claims Shortest Name.

By the Associated Press.

ITHACA, N. Y., Feb. 9.—Cornell University says it has a student with the world's shortest name. He is Mr. I., a graduate student from Tsingtao, Shantung, China. His first name is Fu and the middle name is Te.

Denies Story of Man Held in Killing

MISS GRACE CURRAN
O of Kalamazoo, Mich., a friend of Clarence Frechette, who was arrested in California with the body of Robert Brown in the trunk of his automobile. Frechette said he killed Brown in a quarrel over Miss Curran near Howell, Mich., but she said there was nothing in her acquaintance with either man to lead to a quarrel.

PISTOL NUMBERS CONTRADICT ALLEGED MURDERER'S STORY

Inquiry Made in Account by Man
Who Had Victim's Body
in Auto.

By the Associated Press.

LANSING, Mich., Feb. 9.—Requisition papers for the return to Michigan of Clarence Frechette, held in California for the killing of his employer, Robert Brown of Kalamazoo, were signed today by Gov. Fitzgerald.

By the Associated Press.

JACKSON, Mich., Feb. 9.—A comparison in pistol numbers contradicts the story of Clarence Frechette. That he killed Robert Brown, his employer, during a struggle for Brown's pistol on a highway near Howell, Mich., last week.

Authorities in California, where Frechette was arrested Thursday with Brown's body in the trunk of the automobile he was driving, gave the number of a colt automatic pistol found in the car as 179,408.

That was the number on a pistol missing from a drawer in the gasoline station of George Raviller, at Chelsea, Mich., after Frechette had visited the station on Jan. 23.

California officers quoted Frechette as saying that he and Brown quarreled over a young woman, that Brown took his pistol from a pocket of the car and that during a struggle for possession of the weapon, Brown was killed.

**LABOR HOUSING CONFERENCE
SECRETARY IN ST. LOUIS**

Miss Catherine Bauer to Discuss
Plans for Organizing Group
in City.

By the Associated Press.

PHILADELPHIA, Feb. 9.—Electric passenger train service connecting New York, Philadelphia, Baltimore and Washington will be started by the Pennsylvania Railroad tomorrow afternoon.

At 4 o'clock the Congressional

Report Soon.

NRRA prepared today to publish a report on the aluminum industry. The aluminum code must be renewed before June 16. When it was renewed last time the President pointed out that the NRA study of the code's effect on small industry had not been completed.

It is now finished and NRA is preparing to release it shortly. Small aluminum companies have charged that the Aluminum Co. of America, in which the Mellon's of Pittsburgh are heavily interested, has monopolized the industry. The report is to make findings on this question.

BANKRUPTCY PLEA BY DENTIST

Dr. Irvin C. Solar Lists \$880 of
Liabilities, Assets of \$847.

Dr. Irvin C. Solar, a dentist, 7216 Tulane avenue, University City, filed a voluntary petition of bankruptcy yesterday listing his liabilities at \$880, of which \$662 is unsecured, and his assets at \$847.

Miss Bauer described as an example the four apartment buildings, which house 300 families, recently built for Philadelphia hosiery workers through Government funds.

DIES IN AUTO ON BRIDGE

Man Thought to Be G. W. Becket
of Mascoutah, Ill.

A man thought to be George W. Becket of Mascoutah, Ill., died suddenly while driving across the Municipal Bridge at noon yesterday.

The machine swerved to the curb and stopped as the driver fell against the steering wheel. The man, about 40 years old, was pronounced dead at City Hospital and the body taken to the morgue. The accident was due to a heart attack. The machine license was issued to Becket and a key found in the man's pocket bore that name.

SUNDAY DRY GOODS CLOSING

Police on Feb. 17 will begin en-forcing the city ordinance requiring dry goods stores to close on Sundays.

Last Monday Circuit Judge O'Malley sustained the city's charge of robbery while armed in the hold-up March 27, 1933, of the Belleville National Bank by two men who escaped with \$2700.

Alderman Hoebling

I know that my retirement will make no difference in its cardinal principles; that it will always fight for progress and reform, never tolerate injustice or corruption, always fight demagogues of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare; never be satisfied with merely printing news; always be drastically independent; never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

JOSEPH PULITZER.
April 10, 1907.

Relief Recipient's View.

To the Editor of the Post-Dispatch:
"WE favor birth control as a new line of defense against publicly supported dependents," Mrs. Samuel McPheeters as reported in the Post-Dispatch of Jan. 30.

As a married woman on the relief rolls, I should like to discuss the above statement from our point of view. Certainly no woman on relief rolls should bring a child into this world. We are not receiving sufficient to buy adequate food to produce a healthy child, and we are not receiving adequate medical attention.

When the child is born, we do not receive adequate bedding and the unfortunate child does not receive sufficient clothing to keep it warm or clean.

The Women's Committee of Local 84, Illinois Workers' Alliance, brought up the question of a birth control clinic in a meeting with the Williamson County Relief Administrator at least two months ago.

We pointed out the conditions stated above, and also that no woman could have children at the rate of one a year and be healthy herself or produce healthy children. We also suggested that if a clinic were opened here, we would do our best to see that the women on the relief rolls were acquainted with the opportunity open to them. We also gave Mr. Miller, the Administrator, the addresses of various organizations, and that was the end of it as far as he was concerned.

Another "so sorry" that buzzed for a day (the occasion has filtered into forgetfulness) was the refusal of Harvard's Dr. Elliot to sit on the same platform with John L. Sullivan, then a graying warrior grooved in the respectability of correct habits, the riotous belligerence of the bar-room era "all shovved behind him, long ago and faraway."

And now Frank Vanderlip, in his Saturday Evening Post memoirs, reveals an incident of the same genre.

An invitation went to a college president to dine with Capuano, among them Senator Aldrich of Rhode Island, who would discuss the pressing question of currency reform. Mr. Vanderlip was dumbfounded to be told the desired guest could not bring himself to speak on the same platform with Senator Aldrich.

The university don was Woodrow Wilson.

HISTORIC REGRETS.

Everyone who was reading the papers at the time remembers the affair—that breakfast at the Hamilton Club which Theodore Roosevelt put into the headlines because he couldn't break bread with Lorimer. It quite bowled over Chicago's urbanity, but *savoir faire* came squarely to the rescue.

Another "so sorry" that buzzed for a day (the occasion has filtered into forgetfulness) was the refusal of Harvard's Dr. Elliot to sit on the same platform with John L. Sullivan, then a graying warrior grooved in the respectability of correct habits, the riotous belligerence of the bar-room era "all shovved behind him, long ago and faraway."

And now Frank Vanderlip, in his Saturday Evening Post memoirs, reveals an incident of the same genre.

An invitation went to a college president to dine with Capuano, among them Senator Aldrich of Rhode Island, who would discuss the pressing question of currency reform. Mr. Vanderlip was dumbfounded to be told the desired guest could not bring himself to speak on the same platform with Senator Aldrich.

We women do not want relief, doles or charity. We want opportunity. We want jobs for our husbands. The working class woman has never lacked work to do herself. And we want our husbands to have jobs that will enable us to have some of the facilities that other folks have: running water in the house, bathrooms, furnaces, electric lights and other labor-saving devices to lighten our toll, that we may have more time to devote to our husbands and children.

BETTE NAYSMITH NORMAN.
Marion, Ill.

Prophecy.

To the Editor of the Post-Dispatch:
CONGRESS and the President will be C upheld. While the enumerated powers of the Constitution are plainly defined, the Supreme Court of the United States has adopted a doctrine of "implied" powers. This was definitely settled in 1791, during President Washington's administration.

I am not a lawyer, but it is plain to me that the Supreme Court of the United States will sustain the recent laws of Congress, no matter what is nominated in the bond—gold, silver or anything else.

It may be as well said now as then that "the Americans have more than once bent their Constitution in order that they may not be forced to break it."

OSCAR DANE.

A Reply to Mr. Weber.

To the Editor of the Post-Dispatch:
AFTER a eulogy of the Hitler regime by Dr. Hans Schmidt, Adolf Weber takes you to task for your editorial, "Two Years of Nazi Rule," which any informed and unbiased person would be compelled to see as a statement of undeniable facts couched in dignified language.

Mr. Weber says Germany has established justice within her walls. If what the Nazis (not German) have perpetrated is regarded by him as justice, he has queer conceptions of it. Is it justice to confine in concentration camps thousands of men and women for no other reason than that of having been political opponents?

This is as it should be. Whatever may be the ruling of the court, life and business must and will go on. While the stake looms up larger this time, it may well be recalled that this sort of suspense is not new to Wall Street. Fifteen years ago, the financial community awaited with bated breath the court's action in the case of McComber vs. Elsner. The issue in that instance was whether stock dividends were taxable, a matter which, needless to say, lay close to the hearts of those whose interests center in that short by-street in lower Manhattan.

The question of the hour cannot be pressed into a partisan frame. The question is "Whatever will be come of all of us?" Where are we going—how soon shall we get there—and what shall we bump into "at the end, at the end, at the ending of the day?"

LIFE GOES ON.

Things are moving along about as usual with the gold-clause issue still undecided. However much Wall Street may be suffering under the suspense, at Jefferson City, in Louisiana, at the City Hall, in the factories and shops and offices and on the farms, another period of doubt seems to be making no difference.

This is as it should be. Whatever may be the ruling of the court, life and business must and will go on. PAROLING PUBLIC ENEMIES.

What has been the result of the sentimental practice of pardoning and paroling hardened criminals? J. Edgar Hoover, chief of the Investigation Department of the Department of Justice, leader of the Federal war on kidnapers, reports: "One out of every eight persons arrested in kidnapings had received clemency through pardon, parole, probation or 'leave from jail.' One such person was Baby-face Nelson, for a time Public Enemy No. 1, who, in his last stand, killed two of the Federal Government's ace investigators.

Doubts Mexico's Sincerity.

To the Editor of the Post-Dispatch:
READ in the Post-Dispatch of Feb. 13 that the Mexican Government opposes Senator Borah's proposal for an inquiry into conditions in Mexico on the ground that such an investigation is unnecessary. Can we accept the Mexican explanation as sincere? Certainly the Mexican Government has not been sincere in the matter of its 5 per cent Government bonds of 1899 and 4 per cent bonds of 1904, neither of which has yielded any interest since 1913. Many United States citizens hold these obligations and make reservations about every official utterance from Mexico.

W. E. ECKART.

closing was inactive."

MEXICAN BONDHOLDER.

case, yet the parole authorities turned him out to terrorize society.

What is the use of enforcing our criminal laws when, by the free use of parole and pardon, the effort is nullified?

UP FROM APATHY.

Events follow closely upon one another in the move to rid St. Louis of the smoke blight. Mayor Dickmann says he is in favor of putting the city into the gas business if Laclede will not make cheap gas available to the people. The Board of Aldermen, which opens its investigation into the natural gas situation Feb. 13, is inviting testimony from Washington or anywhere else. Senator Wheeler charges that powerful Eastern financial interests are keeping natural gas out of St. Louis and Detroit, because they do not want rate structures disturbed. Secretary Ickes says that Texas, having become sensitive about criticism that natural gas is being wasted in the Panhandle, wants the Government to build a pipe line to St. Louis and Detroit.

Meanwhile, the Federal Trade Commission has thrown light upon the reasons why the Laclede Gas Co. has become useless in the situation. The commission points out that when the Monroe interests exploited Laclede, they put in \$5,650,000 and took out \$20,030,500, which exceeded their investment by \$14,380,500. This is why Laclede cannot meet its bond maturities. It is why the company is not free to abandon obsolete properties and make its distributing plant available for the distribution of cheap natural gas. It is why the Post-Dispatch has long advocated that the city pay the company a fair price for its plant. The investors in Laclede's securities could get a better value from the city than they are likely to get from a receivership. In other words, they would rather have the bonds of the city, whose credit is good, than the bonds of the company, whose credit is bad.

The seriousness of the smoke situation must in time bring all of us to our senses. The sulphurous gases released in the city by inadequate combustion of soft coal are unfit for human lungs. We are making sinus patients of children. The value of property in the city is fast being destroyed by soot and grime. The population is being driven into the county. The smoke cloud which settles down upon the city whenever there is not enough wind to blow it away has now become almost as oppressive five and six miles west of the city as it is at Jefferson Avenue. It is destructive of trees and plants.

We have been too apathetic, too indifferent to our own material and physical interests, too blind to the certain outcome of such a situation. We are not like any other American city. We sit in the bowl of the Mississippi Valley. We have no sea air to blow the smoke away. We have no lake breezes to blow it away. Being only an approximate 500 feet above sea level, we have none of the outs enjoyed by coal-burning cities whose altitude is higher. We must move in our own defense. It is encouraging to see the Mayor, the Board of Aldermen, the Secretary of the Interior, the United States Senate and the citizens of St. Louis aroused over this situation.

Clear the air!

A FOOLISH REQUIREMENT.

A bill which the Illinois Legislature should reject is that of Representative O'Grady of Chicago, proposing an oath of allegiance to Federal and State governments for school teachers and college professors.

The case against a statute of this sort can be put in very few words. However well-intended, such a requirement is in effect valueless. Taking the oath would stop no teacher from advocating governmental changes which he deemed advisable, since both the United States and Illinois constitutions provide methods of alteration.

The net result would be to lark numbers of persons in a profession which has had enough trouble in the depression years.

The experience of New York is in point. Last year, after twice vetoing similar measures, Gov. Lehman yielded and signed the Ives bill setting up an oath requirement for the teachers of his State. Now, protest meetings of New York teachers are common, and there is already a strong movement to take the requirement from the statute books.

Some of them, of course, can take a lot of punishment. Look at the Democrats. On how many battlefields have they been slaughtered? Franklin Roosevelt is the third President the Democrats have elected in 72 years. As recently as 1928, a good many people were asking whether that party hadn't shot its bolt. In the Coolidge-Davis campaign of 1924, they had heard the then Secretary of State, Mr. Hughes, deliver the heartless judgment that the Democratic party wasn't a national party, just a mere sectional survival. Look at the Democrats now!

The earth and the fullness thereof are theirs, even if we may have more time to devote to our husbands and children.

The DAILY WASHINGTON MERRY GO ROUND

By DREW PEARSON and ROBERT S. ALLEN

WASHINGTON, Feb. 9.—ALTHOUGH no longer chairman of the Foreign Relations Committee, Senator Borah still wields tremendous power with the State Department. American career diplomats—particularly Douglas Jenkins, Consul-General in Berlin—had allowed Isobel Steele, an American girl, to languish in a Nazi jail for four months. On one occasion Jenkins did not visit her for a month. There was no definite charge against her. There was no Nazi. Nazi authorities confiscated her money, kept her in solitary confinement, even made her pay cell rent. Secretary Hull did nothing. Finally Borah was informed of the situation, raised such a commotion that she was released. . . . Bob Staus, hard-working son of Macy's Ambassador to France, says: "The difference between Gen. Johnson's NRA and the present NRA is that Johnson's NRA was a bit slow and made mistakes. The present NRA doesn't ever make mistakes." Both titles annoy him considerably.

Unusually good Congressional material for the Congressmen's Directory, Representative Marion Anthony Zioncheck, enters only his name and "Democrat of Seattle, Wash." He omits to mention that he was born Marian Anton Zajacek in a part of Austria that is now Poland, was naturalized 10 years ago. He is one of 11 foreign-born Representatives in the Seventy-fourth Congress.

No Chances.

"UNCLE ANDY" MELLON is taking no chances in his tax battle with the Government, which opens in Pittsburgh next Monday. In addition to ex-Senator David A. Reed, Mellon has employed Frank Hogan, one of Washington's leading criminal lawyers, and defender of Albert B. Fall and Edward L. Doheny in the famous Teapot Dome prosecutions. Hogan signaled his taking up arms for Mellon by serving subpens on Attorney-General Cummings, Secretary Morgenstern and Internal Revenue Commissioner Guy T. Heverling. The purpose of this maneuver was not to force their personal appearance but to obtain access to all the records pertaining to the case in their files. Mrs. Caroline O'Donnell, close friend of Mrs. Roosevelt, is one member of the House who allows nothing to interfere with strictly union hours. She returns to her office after the close of a session, and is never there on Saturday. . . . The Post Office Department is irritated at reports that its "black-listed" airmail heads who participated in the "shells conference" of 1930 now are employed in "informal advisory capacities" by the airmail lines. . . . Presidential Secretary Stephen T. Early is the Cabinet's most ardent horse-racing devotee. . . . Marvin McIntyre and Attorney-General Cummings are the most ardent golfers. . . . Rumors from Red Cross headquarters say Will Rogers gives that organization his entire receipts from radio broadcasts.

Soured.

A. F. OF L chieftains, soured on the administration, have determined to take their demands to Congress. They have approached Assistant Labor Secretary Edward F. McGrady with the suggestion that he resume his old job as legislative representative. They want McGrady, a real favorite on Capitol Hill, to direct the A. F. of L.

JOHN FERGUSON" PLAYED BY MUMMERS WITH SUCCESS

Personal Physician to President Wilson Appointed to Post by Roosevelt.

For the second production of their seventh season, the Mummers, a local dramatic group, last night presented the Irish drama, "John Ferguson," at the Wednesday Club auditorium. An audience which nearly filled the house received the play with enthusiasm.

"John Ferguson," with which the New York Theater Guild made its first notable success, is a strong play. The plot centers about a serene old farmer who, successively faced with loss of his farm, game to his daughter and seeing his son a murderer, still keeps his faith.

Sam Hickey Sr. took the lead role with a fine performance. In a group of other capable players, Willard Holland, who is also director of the Mummers, stood out as Captain John. Genevieve Albers, Eddie Schwarz, Al Hohengarten, Eddie Abel, Maurice Savore, Sam Hale, and Wesley Gore made up the remainder of the cast.

ASSAILS THE QUALIFICATIONS OF ELEMENTARY TEACHERS

Cincinnati U. Research Man Says One-fourth of Them Are Inadequately Educated.

By the Associated Press. CINCINNATI, Feb. 9.—About one-fourth of the teachers in the elementary grades of American public schools are inadequately educated, Dr. Carter V. Good, professor of education at the University of Cincinnati, and a member of the editorial board of the Journal of Educational Research, said yesterday.

Studies just completed, he said, show that one-fourth of the elementary school teachers in the United States have only a year or less of training beyond high school, and in certain states as many as one-fourth of the high school teachers are not college graduates." He pointed to "the desired level of five years of training beyond high school graduation."

WORKS BILL WAGE FIGHT DEFERRED UNTIL NEXT WEEK

McCarran Says Whatever Committee Does, He Will Carry Demand for Prevailing Rate to Senate.

ROOSEVELT TRYING TO HAVE IT KILLED

Talks With Glass by Telephone and Sees McKellar, Who Predicts Amendment Will Be Deleted.

By the Associated Press.

WASHINGTON, Feb. 9.—The Senate Appropriations Committee, which is considering the \$4,880,000 work-relief bill in executive sessions, has postponed final action on the measure until next week.

Administration leaders succeeded yesterday in defeating four amendments to the bill, including one of inflationary character, but decided not to call up the "prevailing wage" amendment for reconsideration until later. Another meeting was called for Monday.

Senators Nye (Rep.), North Dakota; McCarran (Dem.), Tennessee, and Tydings (Dem.), Maryland, attended yesterday's session for the first time, but their presence evidently did not give the administration enough votes to reverse action on the wage amendment, which was adopted Thursday by a vote of 12 to 8.

McKellar Predicts Deletion.

After talking with President Roosevelt today, McCarran predicted that the amendment, which would require that workmen on relief projects be paid at prevailing wages prevailing in the community, would be eliminated.

"I don't think we should entice men to leave regular jobs to go on relief work," McCarran said.

President Roosevelt also has been in touch with Chairman Glass by telephone in an effort to have the amendment, sponsored by Senator McCarran (Dem.) Nevada, removed from the bill.

McCarran and his group contend that paying less than the private wages in similar trades would tear down the private wage structure all over the country and perhaps make the public works scale the maximum.

McCarran said today that whatever the committee does, he intends to carry his fight for the prevailing wage scale before the Senate.

Senator McAdoo (Dem.), California, who voted for the amendment originally, said he would move to reconsider it. Chairman Glass said McAdoo "apparently thinks he made a mistake."

McCarran explained he had received a telegram from the Budget Bureau that the amendment would necessitate a total expenditure between \$6,000,000,000 and \$7,000,000,000 if 3,500,000 employables were to be taken off relief rolls and given jobs, as Mr. Roosevelt plans.

"Greenback" Proposal Beaten.

The inflation amendment was offered on behalf of Senator Wheeler (Dem.), Montana. Glass said there was no record vote, but that it was "badly beaten." It would have required issuance of \$4,000,000,000 in "greenback" money to finance the works program.

Wheeler said today that he would carry his fight for the amendment to the Senate floor. He said it would save from \$120,000,000 to \$160,000,000 a year by substituting non-interest bearing Treasury notes for the usual Government interest-bearing bonds, otherwise required to finance the program. He declared the notes were as safe as bonds, as both would be backed by the faith and credit of the Government.

Senator Copeland (Dem.), New York, proposed on behalf of the National Association of Furniture Manufacturers an amendment to prohibit the Government from engaging in any competitive enterprise in any community where the existing private industry was in normal operation. This was rejected, 10 to 6.

By 10 to 9, Senator Stewarts (Dem.), Oregon, lost an amendment requiring all public works to be handled under the direct control of the permanent Government departments concerned.

Another proposed change, by Senator Metcalf (Rep.), Rhode Island, providing that preference be given to war veterans in employing persons to administer the bill, lost without a record vote.

Two amendments approved yesterday, apparently with administration consent, would exclude the Philippines from benefits under the bill and provide a double system of penalties for violations of the rules laid down under the law.

\$24,000 Jewel Theft in Home.

HOLLYWOOD, Cal., Feb. 9.—Mrs. W. R. Wilkerson, wife of the publisher of the Hollywood Reporter, a movie trade journal, reported to police yesterday that a man entered her home, threatened her and the maid with a pistol and escaped with \$24,000 in jewelry. The man bound and gagged the maid. When Mrs. Wilkerson returned home a little later, the man stripped a \$12,000 diamond ring and an \$800 bracelet from her hand and arm.

AT MARKET OWNS UPTURN IN LOCAL TRADE

STEADY TO FIRM TONE TO THE BOND LIST

By the Associated Press.

NEW YORK, Feb. 9.—The bond market showed a steady to firm tone in an uneventful session today.

Prices received enough support to maintain the gains of yesterday and closed higher in the lower price brackets also tended to edge a little higher.

S. G. Edwards, of the Treasury ruled a slight move in Southern 4½% of 1950 were bound to 64 at one time.

But there was no indication of pressure on any part of the list.

There was a slight gain in the long end, but the steady market the principal issues.

LOUIS MERCHANTS' EX-
E. Feb. 9.—The grain market advanced higher at the week-end on the local board. More in prospect of orderly to an adverse gold clause should it come, was cited.

Wheat started out 1½.

The close was unchanged.

Gold closed 1½ at 14d. higher.

Wheat closed 1½ at 1d. higher.

STORMY SESSION WITH FIGHT TALK IN VALLE SUIT

Crooner Aims Fist at Wife's
Lawyer After Remark,
'Stop Acting — You're
Not in Films Now.'

JUDGE OFFERS TO
'MEET' ANOTHER

Singer's Motion to Dismiss
Petition of Former Fay
Webb Taken Under Ad
visement.

By the Associated Press.

NEW YORK, Feb. 9.—A motion
by counsel for Rudy Vallee, croon-
ing orchestra leader, to dismiss the
suit of his wife, Fay Webb Vallee,
who is seeking to set aside their
\$100-a-week separation agreement,
was under advisement today in Su-
preme Court. Justice Salvatore A.
Cotillo announced he would give his
decision Wednesday when the hearing
will be resumed if the motion is denied.

Yesterday's proceedings were
marked by a continuation of the
bitter exchange between counsel,
and Vallee himself enlivened the
session by aiming a blow at the
face of Benjamin H. Hartstein, one
of Mrs. Vallee's attorneys. A ver-
bal tilt between Justice Cotillo and
another of Mrs. Vallee's lawyers,
in which the Court ordered the
bailliffs to "throw him out," cli-
maxed the day.

Clash of Vallee and Lawyer.

Vallee's outburst came just after
Justice Cotillo announced he would
reserve decision on the dismissal
motion. Cotillo attaches and others
began to file out of the courtroom
and Vallee crossed over to talk to
newspaper men.

Hartstein stepped from the coun-
table and said to Vallee: "Stop
acting — you're not in the films
now."

Vallee turned, and with clenched
fists, drew back his left hand as if
to swing at Hartstein, who dodged
as several persons in the courtroom
came between them. Then both
turned to Justice Cotillo, and Hart-
stein said:

"I was just adjusting my papers
when this gentleman sneaked up on
me and—"

"Oh, no, he didn't," remarked the
Judge. "I saw Mr. Vallee, and he
didn't sneak up on you."

Vallee explained he thought court
had adjourned. He apologized to
Justice Cotillo, but not to Hart-
stein.

Court Orders Lawyer Ejected.

About that time Justice Cotillo
saw Benjamin C. John, Mrs. Vallee's
California lawyer, taking notes.

"Yes, Mr. California," he said. "I
see you watching me. Watch me
closely and you'll probably get
enough material for an affidavit."

"I resent the implication of that
remark," John shouted.

"I'd like to meet you somewhere
after this trial is over," said Justice
Cotillo. "I'd like to meet you some-
where in New Jersey; that's just
across the ferry."

"Anywhere you say, your honor,"
Cohn answered. "New York, New
Jersey or California."

"He doesn't belong here," Cohn left between two of
the court's officers.

Mr. Vallee Not Called.

The motion for dismissal was
argued by Samuel Gottlieb, assoc-
iate counsel for Vallee, after
Thomas L. Sheridan, counsel for
Mrs. Vallee, had rested his case
without calling her to the stand.

Gottlieb argued that her failure
to take the stand was proof of her
realization that she could not sup-
port her charges. Mrs. Vallee con-
tended the separation agreement
giving her \$100 a week should be
set aside on the grounds that Val-
lee concealed his assets at the time
the agreement was signed.

The grand jury investigation of
alleged graft in Texas was halted
yesterday when three of the jurors
were excused by Justice Jesse C.
Adkins when it was reported they had
relatives in the Government service.

One of the jurors, Charles P.
Ryon, told Government attorneys
that his wife started work yester-
day with the Public Works Admin-
istration. He said he did not know
the name of her place at the time
the jury was formed.

He led to questioning of other
jurors with the result that Benja-
min A. Lefevre, who had been se-
lected as foreman, was excused be-
cause his brother-in-law was in the
Government service. Julian De W.
Sanford was excused for the reason
that his sister worked for the Gov-
ernment.

Adkins said that her failure
to take the stand was proof of her
realization that she could not sup-
port her charges. Mrs. Vallee con-
tended the separation agreement
giving her \$100 a week should be
set aside on the grounds that Val-
lee concealed his assets at the time
the agreement was signed.

The average income for the
last three years was placed at \$120,
000 a year in testimony yesterday
and Justice Cotillo remarked that
"all things being equal" an allow-
ance of \$100 a week out of \$120,000
did not seem fair.

Earlier in the day Mrs. Vallee's
father, Clarence E. Webb, Police
Chief of Santa Monica, Cal., was
questioned about his daughter's al-
leged romantic telephone conversa-
tions with Gary Leon, Adagio
dancer.

FIVE WAR OF 1812 PENSIONERS

Number Reduced From Six by
Death of Cincinnati Woman.

By the Associated Press.

WASHINGTON, Feb. 9.—President
Roosevelt has signed an
amendment to Federal hunting reg-
ulations which limits repeating
shotguns and other weapons of
hunters to three shells at one
time.

Users of guns above this capacity
must have magazines filled with
unremovable plugs or have the
magazines cut down. The change
was recommended by the biological
survey, of which J. N. Darling is
chief.

RAPID GROWTH OF SUN SPOTS

Berlin Scientists Speculate as to
Electro-Magnetic Influence.

BERLIN, Feb. 9.—The rapid
growth of sun spots today kept
the scientists at Cincinnati of
the Veterans' Administration announced yesterday
reduced the number of pen-
sions paid as a result of the War
of 1812 from six to five.

The Government last year paid
out \$322,250 to widows and depend-
ents of veterans of 1812.

ST. LOUIS POST-DISPATCH

Map of Center of Fighting in Chaco

SCOUTS SHOW SKILL AT JUBILEE CIRCUS

Clean Up Tornado Debris, De-
feat Indians and Fly
Model Planes.

By the Associated Press.

LONDON, Feb. 9.—A second firm
founded today as the result of Minc-
ing Lane's pepper crisis.

Shortly before the closing of the
market, the brokers, J. F. Adair &
Co., admitted they were unable to
meet commitments and joined the
firm of James & Shakespeare Ltd.,
metal brokers, as victims of a pool
which tried to corner the pepper
market and failed. Garabed Bish-
irian, "Pepper King," is a director
of James & Shakespeare.

The Adair firm was listed as
rubber produce brokers. Mincing
Lane deals in many commodities.

Atmosfera, for the company ex-
plained, their clients were in no
way connected with the pool as
members, but simply acted as bro-
kers in good faith.

The rubber market remained
open an extra hour owing to the
lifting of the moratorium declared
last Saturday, but the rubber mar-
ket was not affected by the post-
ing of the Adair company as a pool.

Scouts' Ardor Not Dampened.

But the paucity of spectators did
little to dampen the ardor of the
scouts, who went through their acts
with enthusiasm and precision
worthy of a much larger assem-
blage.

Following the grand entry of
800 scouts, who finally arranged
themselves into a closely packed
ring about the circumference of
The Arena floor with 150 standard
bearers in the center, lights were
dimmed for the radio ceremony.

President Roosevelt's talk, in which
he told of the good work done by
scouts in recent years and praised
the idealism of the scout oath, was
heard clearly in The Arena, although
its reception was dimmed somewhat
by the buzzing and chattering that
was almost inevitable when 800 boys
are closely packed together in semi-
darkness.

A third concern was known to
be in difficulties. Twenty others
were saved by arrangements with
bankers.

Mincing Lane was active during
a short session, but there was little
actual trading in pepper. Transac-
tions in that commodity consisted
mainly of presentation of bills, with
an extra "please pay" attached.

Invaders Within 15 Miles of
Villa Montes, Without Risking
Mass Attacks.

By the Associated Press.

BUENOS AIRES, Feb. 9.—A major
battle for possession of Villa
Montes, Bolivia's biggest bulwark
against Paraguayan invaders, is ex-
pected momentarily in military cir-
cles here as sporadically sharp
fighting was reported from the
\$4,000,000 PWA water control pro-
ject in Willacy County, Tex.

With Gen. Jose Estigarribia, Para-
guayan Commander-in-Chief, push-
ing his semi-circle ever closer to the
Bolivian Army base, observers here
hoped Bolivia soon must choose one
of three possible lines of action.

The alternatives are:

1—Stand and fight in an effort
to hold their last important for-
tress in the Chaco.

2—Abandon Villa Montes and ex-
ecute another strategic retreat to
the hills behind it.

3—Counter attack.

The scouts promptly began their
pageant of the history of scouting in
America, its 11 scenes showing
highlights in scout history from
1910 to the present. One scene, de-
picting the work done by scouts
following the tornado here in 1927,
had as an introduction sounds of
wind and thunder, while the large
auditorium was plunged in darkness.

"Bodies" and Debris.

When the lights went on, the floor
was littered with debris and "bodies,"
but the scouts had the situation
under control and were able to
carry the "injured" into the first
ambulance, also manned by scouts,
to appear on the scene.

A scene representing the 1933
Jamboree in Budapest showed boys
in all possible variations of the
scout uniform having a dazzling
array of flags representing the
countries from which they came.

The loudest applause of the even-
ing went, not to the grand finale
as had been expected, but to the
aviation act, where more than a
hundred small planes were sent aloft.
A large model of a cabin
monoplane crashed, but a smaller
model spiraled gracefully to the
roof and came down in a safe dead-
stick landing. It made a second
flight, staying up until after the be-
ginning of the next feature, a chariot race.

First Aid to the Rescue.

That circus performers can be
dangerous to young men even without
the aid of flying trapeze was well dem-
onstrated in the "First Aid to the
Rescue" act. Scouts jumped into
nets allowed by automobiles, were shot
by bows, fell through paper ice
into an imaginary lake, and under-
went electrocution atop a telephone
pole, just to demonstrate their faith
in the medical skill of their com-
panions.

LEAD

KINLEY AND
SOLDAN WIN IN
LEAGUE BATTLES

THE BOX SCORES

VOSS, HOWE AND
BRYDSON START
FOR EAGLES IN
CANADIEN GAME

All Set.

THE sun is breaking through the fog, having four points as a result of two draws and a victory in National Hockey matches during the past week, Buck Boucher's St. Louis Eagles oppose the Montreal Canadiens here tonight.

The 1 to 1 and 3 to 3 ties with the Canadians and New York Americans and 1 to 0 overtime victory over the world champion Chicago Black Hawks enabled the Eagles to take a new lease on life.

The game with the Canadiens is of importance to the Eagles. A victory for the Bouchermen would enable to climb two points closer to the Canadians and Americans who, along with the Eagles, are battling for the third play-off position. The pacemaking Toronto Maple Leafs and Montreal Maroons are certain of gaining the other two berths.

At the present time the Eagles, with 20 points, are six points behind the Americans and seven in the rear of the Canadiens. The trend of the scheduled season seems to indicate that the Canadians will be the ones to gain the two berths.

Two minds with but a single thought, Two hearts that beat as one.

FEET, Do Your Stuff!

A foot injury may keep Cavalera out of the \$100,000 Santa Anita race. That's at the rate of \$25,000 a foot.

See where 22 graduates of Cincinnati's prep school have been signed by the Reds. Looks like a big year for the freshmen.

The Scots Guards are busy rehearsing a tune written by the Prince of Wales entitled "Mallorca." Toot, mon!

Finding himself in a peck of trouble, Rudy Valler hired him a lawyer named Hyman Bushel. Fair enough.

The fact that "Dixie" was written by a Northerner demonstrates that local atmosphere is not necessary to a popular air.

Joe Stalin is at the head of a committee to make Soviet elections more democratic. Jim Farley might give him some pointers.

Drop a line to our Postmaster-General Jim. Learn how to go Democratic from him.

Just to show that Dizzy Dean had nothing on him, Scholboy Rowe balked on his contract. But the

action marked the second set. Dean had the ball any old right hand, left hand, one and it would swish through. Late in the game, Dugold and started for set, but as he started to old pushed him and ruined him. A personal foul was in Gold and as the team along the free throw line, grinned at Gold, who grinned back. Sooner the Maroons visit Toronto tonight for their fourth encounter of the season with the Leafs, then move to Detroit to face the Red Wings, who have been slumping ever longer than Toronto.

The two tight races in the divisional standings are involved in the three games on the weekend. In the American division, the first place Chicago Black Hawks tackle the third-place New York Rangers, while the Boston Bruins face the giant-killing New York Americans.

WESTERN SWIMMERS

DEFEAT CLEVELAND

Military Academy's swimming team captured five of the eight firsts in the dual swimming meet and stopped Cleveland's string of victories at four yesterday at the Carondelet Y. M. C. A. pool, the Cadets winning the meet, 45-30.

Football Blamed for All Ills of Colleges.

WHY be so ready to condemn And bite the hand that's feeding them?

The fact remains, despite their ills, it's football helps them foot the bills.

The football coaches demand better officiating and, judging by the annual turnover, the colleges are demanding better coaching. They come and they go.

ST. LOUIS U. HIGH FIVE DEFEATS MCBRIDE, 22-9

St. Louis University High School's basketball team won its Preparatory League game last night by defeating the McBride five, 22-9, at the Junior Billikens' gymnasium.

Following are the survivors and pairings for this week's round: Ann Pokorny-Lucille Wilson, Helen Mirth-Arn La Breque, Adele Traut-Arn Johnson, Leola Tretter-Hester Holtz, Helen Frederic-Ethel Sablakoff, Phyllis Bostelman-Clara Mataya.

Men's Tournament Postponed.

Due to the city handicap tournament and the special match between the Hermanns and the Pahs Blue Ribbons, the semifinal round of the men's eliminations has been postponed until next week when Earl Fiedler, Ray Newton, Hank Summers, Win Glaub, Art Scheer and Harold Schaefer will meet for the right to compete in the field goal, McBride tallying only one point during the 16 minutes of action in the last two periods.

The box score: ST. LOUIS HIGH MCBRIDE (9, 22). FG.F.T. Evans 100, Schenk 100, Lueke 100, Luth 100, Dinsinger 100, Caples 100. Totals 8-6. Score at half-St. Louis 10, McBride 8. Referee-Lionemeyer.

LAST NIGHT'S FIGHTS

By the Associated Press. PHILADELPHIA, Bob Turner, 156, Norfolk, Va., outpointed Henry Firpo, 161, Louisville (10). Carl-Jimmy Christy, 120, Philadelphia, outpointed Tony Morgan, 120, Louisville, 10. Jimmy Paine, 125, Los Angeles, knocked on Frankie Mania, 125, (5). JACK WILLIS, 105, Los Angeles, knocked on Frank Wallace, 105, Los Angeles, 10. JACK TECO, 105, Portland, Wash. (8); PEAK SAMSON, 125, Roslyn, Wash. (1); AUGIE SOLIS, 135, San Fernando (1); AUGIE SOLIS, 135, Hollywood, knocked out Al Ecker, 135, Miami, Fla. (5).

The Hell Packers, a famous Milwaukee pin team, who won the Central States team title this season and finished second in the Midwest meet, will attempt to wrest the national team match title from the champion Stroh Bohemians. Durov in an 18-round bout, the Strohs recently successfully defended their title by winning from the Hermanns in a challenge match. Kober's home is in St. Louis.

All Happy There.

Machine Gun Collateral.

Pepper and Caviar.

\$11,000,000 Melon.

By ARTHUR BRISBANE.

(Copyright, 1935.)

N London, John Puckering, 58
years old, apparently dead, was
brought to heaven. Meanwhile, he had gone to heaven, saw
interesting things, came back to
tell of them. Souls, evidently, travel
more rapidly than light, which
takes 900,000,000 years to get out
of the universe as we know it, going
186,000 miles a second. Mr.
Puckering says heaven is filled with
a "happy crowd."

There were no children. All
were dressed as on earth.

No moths in heaven, of course, no
depression either.

A little national bank, in a little
New York village called Sparkville,
was robbed of \$18,000 yesterday in
the usual way. Two men with
machine guns said "Everybody lie
on the floor." Everybody did so,
including one lady.

Strange situation in this rich,
energetic country, when the only
"security" with which you can get
money out of a bank is a machine
gun.

Russian, Greek and Jewish mer-
chants will tell you the Armenian
in business is smart, often thinks
up new ideas. Garabek Birsirian,
born in Armenia, changed to a British
subject, bought his way into the
ancient British firm of James &
Shakespeare, and started. He had
made a comfortable fortune cornering
caviar in London, buying it up in
Russia, increasing the price.

Then he turned to white pepper,
"cornered" that, put the price from
13 to 36 cents a pound, stored away
in his London warehouse 16,000 tons
of pepper, enough to supply all Eu-
rope for several years.

Just at present Mr. Birsirian's
firm is bankrupt, but he is not dis-
couraged. Other things can be-
come.

Count Tolstoy, son of the great
Leo Tolstoy, who died in New York
recently, said that there was one
Asian race, small in number, "even
smarter" than the Armenians, "one of
them," said he, "is worth three
Armenians in driving a bargain."

He could not remember the name.

Alfred P. Sloan Jr., head of General
Motors, announced that 30,000
employees, under the company's sav-
ing and investment plan, will have
\$11,000,000 cash divided among
them. The employee who saves \$25
a month, the maximum, \$300 a
year, gets back his \$300, plus
\$321.52, contributed by the company
including \$114 for interest. It is
rather difficult to persuade men
to "arise, ye prisoners of starvation,"
and "throw off their chains," when
one of the chains is attached
to an \$11,000,000 melon.

"Seest thou man diligent in his
business, he shall stand before
kings." The late Thomas E. Ma-
loy, business agent of the Motion
Picture Operators' Union, recently
murdered by gangsters, for reasons
of their own, was diligent in his
business. He did not exactly "stand
before kings," but he lived comfort-
ably. Federal authorities that in-
dicted him in an effort to collect in-
come tax on \$300,000 income supply
interesting information. Maloy had
in his apartment a \$4000 bathroom,
a drinking bar that cost \$5000.

Union members gave him these
privileges and \$24,000 in cash to
finance a trip to Europe. His sal-
ary in the union was \$500 a week,
but that was only pocket money.
According to Government authorities,
one Loop theater paid Mr. Maloy
\$10,000 a year, "for getting them
better operators."

He allowed distributors to dis-
charge union operators, regardless
of union rules, on payment of \$100
for each of the 100 operators dis-
charged, and for a reasonable pay-
ment, he allowed nonunion opera-
tors to work. On one occasion Ma-
loy admitted he drew \$500,000 from
a certain bank, but it was "just
union funds being shifted." The
Union, at one time, gave him \$275,-
000 to use as he pleased for a "war
chest."

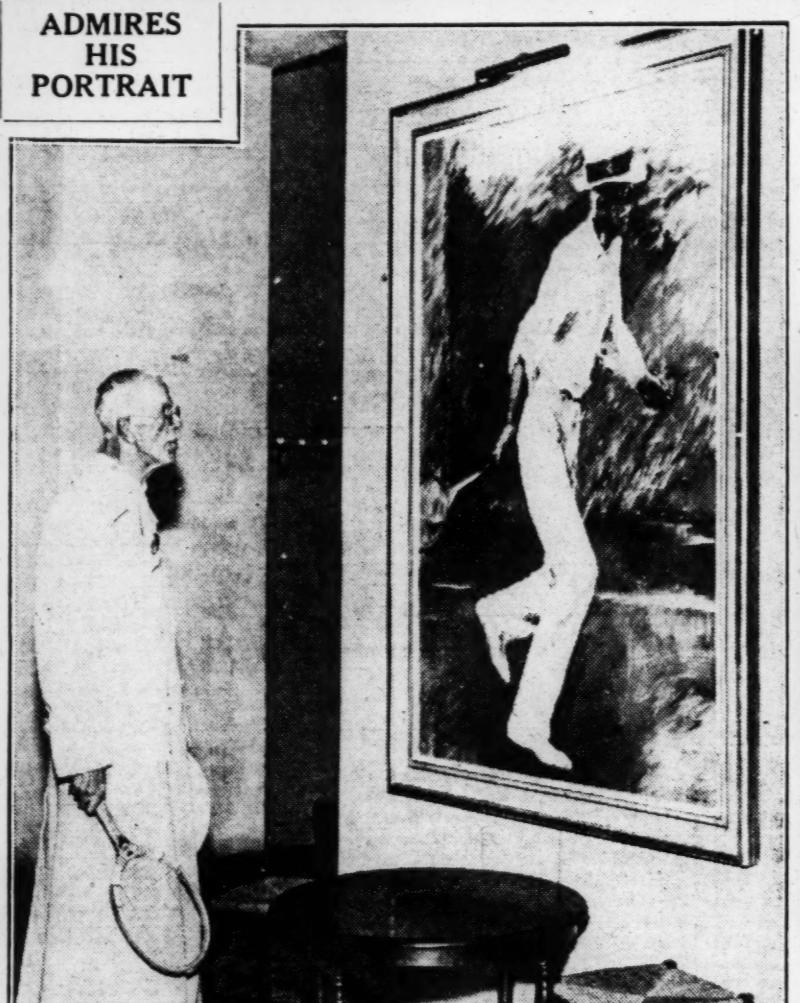

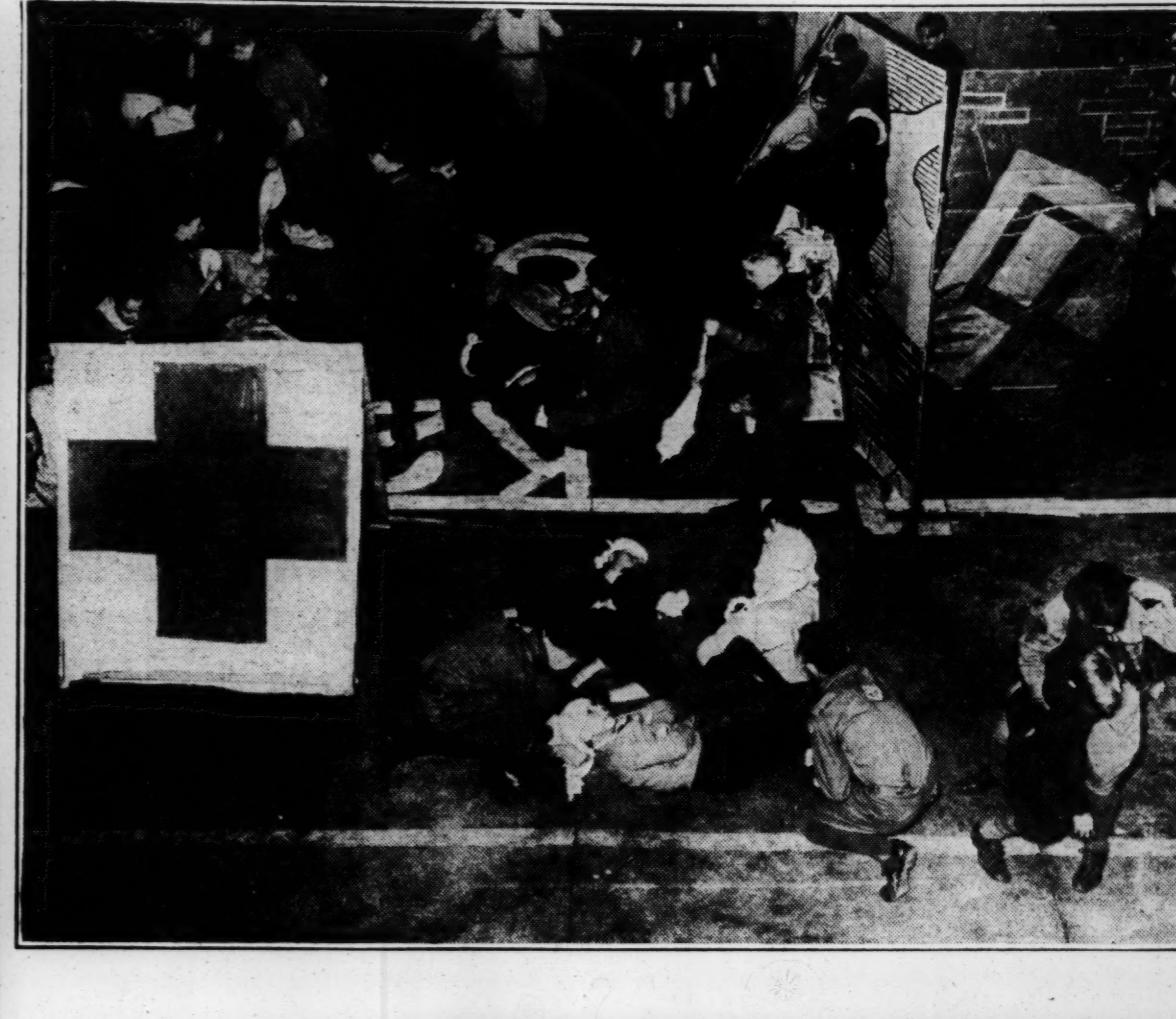

If Mr. Maloy's successor does bet-
ter, he will do well.

Eugenio Piermonte, traveling abroad
with his second wife, the former
Mrs. Madeleine Astor Force Dick,
visited the first wife whom he di-
vorced, and their child. The Asso-
ciated Press reports that the sec-
ond wife, the unhappy American
lady, "wept hysterically" when told
that her husband had gone to see
his first wife and child. If she
knew more about Italian character
that would not surprise her.
Italians are devoted fathers, the
child in Italy might outweigh a
million dollars in America.

Mr. Hauptmann, on trial for kid-
napping the Lindbergh baby, tells
reporters "I don't feel so good."

On
Broadway
By Walter WinchellST. LOUIS POST-DISPATCH
DAILY MAGAZINE

A St. Louis Salon on The Orient

By Marguerite Martyn

BROADWAY Novlette: Nick, the Greek, that affable sportsman, who has had so many legends written about him, is back in the money, apparently. . . . The current talk about him also concerns a New York man, who, when he was a boy, was Nick's better friend. His name is Gene McHugh.

At any rate the legend goes this way. . . . They were up against a whisky and soda fountain in the Broadway arena the other night and McHugh attempted to pay the bill. . . . "The Greek" made him put his coin away. . . . You can't pay while I'm here," he said. . . . McHugh then said: "I'll drink with you that way if you promise to take this 20 dollar bill and keep it as aemento of our friendship." . . . "Tell you what," said Nick. "I'll keep your \$20 if you keep a bill for me—as a memento." . . . Nick handed him a check-folded bill. . . . McHugh put it in a vest pocket. . . . The next day he discovered it was a \$1000 bill.

Inconsequential Intelligence: An Aberdeen (Scotland) newspaper now features a typical "Broadway" column, but the columnist, Peter Potter, isn't selfish. When he takes, he credits the source. . . . Lee Posner relates that his new discovery, Tamara Doriva, a flamenco dancer, has been placed on a diet. She must eat four persimmons and two pomegranates daily.

MISS HANA TANABE

Walter Winchell

Copyright, 1935.

BIG log fire blazing in a wide open hearth, an inglenook, deep cushioned divans; the last rays of the winter sun lighting up varicolored glass ornaments and growing greenery in windows which look out on a garden deserted but not withered in its stateliness. Little mosses, iron grill work and many quaint garden fixtures; a long room crowded with objects of art, bibelots, rare antiques, curios gathered on many discriminating quests among Old World treasure troves; a group of guests eager and sensitive to these inspiring surroundings; a genial host; good tea with dainty canapés and cakes; a program diverting and stimulating; much animated talk and discussion—these are some of the components of "a salon," a form of entertainment being participated in by congenial assemblies certain Sunday afternoons at Peter Seltzer's Studio Garden in Kirkwood.

JOHN WOOD: The idea is not clear. There seem to be several volunteer hostesses. Miss Margaret Hewitt of the English department, Washington University, may be responsible for the programs. Mrs. Everett W. Pattison and Mrs. Virgil Rule presided at the tea tables last Sunday. You don't have to be specially invited. You may even pay for your tea and you may buy some of the less cherished decorations and any of the garden furnishings displayed on the inclosed veranda, though so indigenous seems the arrangement of the wares, there is nothing to lead you to suspect this is a shop.

The entertainment is the appearance of being provided by guests and is all more intimate and sociable than anything conventionally staged. This turned out to be an Oriental afternoon. Miss Ruth Ingram, who came from the Inglenook Inn and from knowledge gained in long residence in China, was in charge of the art of living in that country, and Miss Hewitt arrived with a little Japanese girl, Hana Tanabe, a dental student at Washington University, who permitted women to all but pick her best kimono to pieces in their examination of its details, and answered questions on the differences between her ways and ours.

NOT quite five feet tall, swaying and posturing in that mincing and fluttering manner they have, she looked like something off a Japanese fan. Her kimono was of heavy crepe shaded from pale rose at the top to sea green at the padded hem and interwoven with shadowy designs of bamboo, lotus flowers and a device, a sort of family crest which she explained is woven into every yard of material each member of her family wears. Bound tight around her waist were the top folds of a gold brocaded obi with a grey peacock at the back. Black hair arranged in rolls and puffs was adorned with long flowers curiously wrought of tiny silk petals, a comb ornamented with silk flowers, an artificial cock's comb of red velvet and some tassels of glittering metal discs. "It is a wig," announced Hana (whose name means flower) convulsively when we had been sufficiently taken in. "My own hair I wear bobbed for 10 years now." She and giggling, her head ducked sideways at each remark, she could quickly assume the attitude of independence and conviction she has learned in America. As I sketched her, she suggested, "Do not make

Scallions.

AS many scallions as you can throw in a month at the bosses of a Philly spot, who discharged a performer named George Scotti for "missing" a performance. . . . They knew all the time why he missed it. He played two charity affairs held for the President's birthday parties in the vicinity. . . . Scotti wrote a complaint to Mr. Roosevelt. Let's hope Steve Early or the other secretaries don't bury the letter. . . . That is the height of low-dealing—firing a fellow for helping to make the affairs for the infantile paralysis sufferers a success.

Names.

OUR statesmen, who like to be called Honorable, are picking up nicknames like sinister characters. . . . This week, firstname. Time mentions not only Kingfisher Long, but also Speaker "Call Me Uncle" Long.

Byers, Congressman "Gooyer" Cox

of Georgia, Congressman "Kid Boots" Dies of Oregon, Congressman "Father of His Country" Smith of Virginia, and Senator "Red Neck" Bilbo of Mississippi.

What, no Joe, the Goniff?

look like Coney Island the latest

invasion will be the old-fashioned

ten-twenty and thirt' stock company

soon due on Columbus Circle. . . .

Leon and Eddie's rendezvous has

spun up a new idea. The next

snow fall won't keep customers

away—for they will be called for if they phone) and sent home in a

fleet of sleigh taxies!

Observations.

Olin Miller's observations are

pungent, to wit: According to an

editor, only one who has suffered

can write a modern novel. . . . Well,

read one and then you can write

one. . . . So live your life that your

fellow man will not get a good

laugh out of the inscriptions on

your tombstone. . . . A reader asks

an etiquette columnist who he

should say when the hostess spills

a cup of hot coffee all over his lap.

"What the hell?" would be

quite in order. . . . "Which would

you rather eat—spinach or car-

rots?" asks a dietitian. . . . Tomatoes! . . . A newspaper man is one

who never has the time to read a

book, but thinks that in the near

future he will write one. . . . Many

a person who is too polite to put

a knife in his mouth won't hesitate

to stick one in your back. . . . Life

is worth living if too many people

don't try to kill you. . . . A

humorist is a person who has a

better memory than his readers

have. . . . Police recently arrested a

Californian who was leading a

double life on \$20 a week. The

State seems to be teeming with

magicians! . . . Izzy Elinson says

"I'm beginning to get worried. I

seem to be the only guy who wasn't

in that Bronx bakery the night of

the kidnaping."

TOO Fine

Perhaps you have found a pat

tern in crocheting or embroidering

in newspaper that you would like

to copy, but it is too hard on the

eyes account of the small print.

Try using a magnifying glass and

see if then you cannot readily copy

the stitches.

Amusing the Baby

Stretch a heavy cord across the

top of the crib from one side to

the other and on the cord hang one

or two fascinating rattles. They

will entertain the young baby for

hours at a time, as when the little

hands are not busy the tiny feet

are.

In the Linen Closet

Among Suits The Norfolk suit, belted, buttoned and with patch pockets, is popular for present wear under fur coats in fresh pastels.

IF YOU ASK My OPINION

By MARTHA CARR

Dear Mrs. Carr:

I AM engaged to a young man who is in business with his father. Although at this time the business is very poor, before the depression the business was really very sound. My father likes my fiance, but he says the boy is not one for me to marry. Dad expects me to marry a near-millionaire, I suppose, because, he says, my husband should be able to give me every-thing, car, beautiful clothes nice home and so on.

But I would rather marry Frank and help him save and get all these things and face things together. As a matter of fact, we do not intend to marry until we have saved money enough to pay cash for furniture and, even though his salary is small, it would be enough to pay for our needs.

When mother married Dad, he earned little, but she married him because she loved him. In my opinion, to marry for money is the lowest form of descent.

I AM going to a cocktail party for a nephew and his bride. Will it be all right to suggest a menu easier for me. I feel that I could enough at 21, to choose. And if I make the mistake of marrying for money, I will regret it all my life.

I am willing to wait and try to go ahead, why should Dad say no?

He told mother to try to dissuade me.

MARGARET R.

Love, of course, always "found a way." Some of the happiest marriages have been those (like that of your mother and father), which, for love, have endured hardships, self-sacrifice and even real suffering.

But you must be sure that you fully understand what these mean. Do you think the attitude of your fiance may have been inspired by his knowledge of your tastes and demands at home? Then, too, it is only natural for a father to wish to protect his daughter from hardships, these fathers who sometimes seem a little mercenary, are far-sighted enough to know that the tests that will be encountered by a girl who has been indulged, and who depends so much at home, upon her luxuries, will not always change her. He knows the change is not always wrought by imagination.

Being a minister of the gospel, I am often times called upon to perform marriages, certain ministers do not know marriage laws and customs. If I have not been misinformed, marriage between an Oriental and one of the Occident is not only disapproved, but illegal. We oft times hear the old saying, "East is East and West is West; and never the twain shall meet."

I was told by Chinese missionaries that Oriental parties you could send me. I would like to have some for the boys and girls from 9 to 12 and some for those from 13 to 18. If you can help me any I will appreciate it so much.

ETHEL M.

These have been mailed to you.

Dear Mrs. Carr:

I WOULD like to thank "A Friend" through your column for her interest in Baptist Center. I also thank you for your kindness.

Mrs. Carr do you have any plans for Valentine parties you could send me. I would like to have some for the boys and girls from 9 to 12 and some for those from 13 to 18. If you can help me any I will appreciate it so much.

M. G. C. EVANGELIST.

My dear Mrs. Carr:

THIS is in answer to "Mrs. M." who says she hears noises at night. I had the same experience a few years ago. Less than a half hour after I went to bed I could hear walking across the room; the walking sounded like that of a large dog, its claws clinking into the carpet. After this, often, something would fall from the kitchen stove. I knew then there must be rats in the house, but couldn't find holes anywhere, until I went to the bathroom late one afternoon and discovered two rats as large as cats. They immediately ran down the side of the drain pipe, where there was a space of six inches between sewer and the floor. It didn't take me long to close up the hole with a piece of tin. I also provided myself with rat biscuit. I didn't hear any more spoons after that.

L. C.

It was always mother's fault. Daughter always failed to take stock of herself, hence frequent quarrels. I wonder if we all are fully aware of the debt we owe to mother, and if we are to be fully cognizant of the necessities a parent makes, and if we have been schooled and clothed to the best of the parent's ability, shows a decided lack of gratitude when it presumes to think of seeking some other place of abode.

Christopher Crow
is a Hard Time
Getting to Sleep

Mary Graham Bonner

Puddie Mudders jumped at Christopher happily, for he had not been frozen, as he had at first feared. Then badly nipped with the cold now it was all right.

This wing was injured as he sat against the chair.

"Nilly set it so that it was, but still he could not use the night came on poor her could not sleep.

He tried to put his head under his wing, but it was so uncomfortable that he could not get

foolish, he told himself, not to use his right wing. He realized how strong was the heat made him always sleep the way the night left wing he had to keep it still, and through the night he put his right wing and tried only to wake up before he finally began to doze.

He tried to be very quiet, so as not to disturb the others. Once he awoke and asked him if it was anything he wanted, and Christopher would have have somebody awake to him, he said he was quite all

new how much time Willy lost and how much sleep cost him. So Christopher the long night without sleeping most uncomfortable.

That morning would never be felt that the others sleeping longer than ever, but they awoke, and what a joy to talk, to have breakfast, after!

EXPLANATION OF YESTERDAY'S CARTOON

DIGE WRITTEN BY A NORTHERNER—Daniel Decatur Emmet (1815-1904) was born, died and is buried in New York. He travelled with a Negro minstrel troupe and in New York in 1859, was requested by a (el) to pen a "hurra" or "walkabout song." He thought himself of the popular showman phrase, "I am a Dixie Land" and composed his tune to it. Two years later at a theater in New Orleans it stirred a Slave audience into adopting it as the War Song of the Confederacy. It was first sung officially at the inauguration of Jefferson Davis on Feb. 18, 1861.

FLYING UP TO JUMP DOWN—Paul Bergling, member of the District of Columbia Air Legion, became the first man to jump from a plane the first time he ever rode in one, May 12, 1929. On his second trip in a plane he did the same thing—came down in a parachute. Bergling likes "chuting and will take a ride in the clouds any time for the sole purpose of jumping out."

THE PLATINUM WIRE TWICE AROUND THE EARTH—The scientist Wollaston first drew platinum into wire 1500th in diameter, by drawing it as fine as possible, coating it with gold, drawing it again and dissolving the gold, redrawing, redrawing, etc. If only one ounce of platinum were stretched out in the form of such fine wire, it would reach 50,000 miles.
